The Way Real Estate Should Be™

We know Realtors have a reputation.

We are changing that.

The stereotype for the real estate industry is to only highlight the good while ignoring the bad, not looking into, or hiding the bad.

At Ashlar Home Team, we believe that the only way you can make an educated home decision.... is by being informed of both the pros and the cons!

A home buying or selling experience with us feels like a service revolution but we are revolutionizing the way we do business.

CLOSED SALES

Closed Sales are one of the chief indicators of demand in the real estate market.

Looking at percentage change is usually a bit more helpful than looking at pure numbers as that generally indicates the trend the market is taking compared to the previous year.

Closed sales do naturally vary month to month.

Month	Closed Sales	Change YoY
Dec 2025	926	1.87%

Dec 2024	684	2.70%

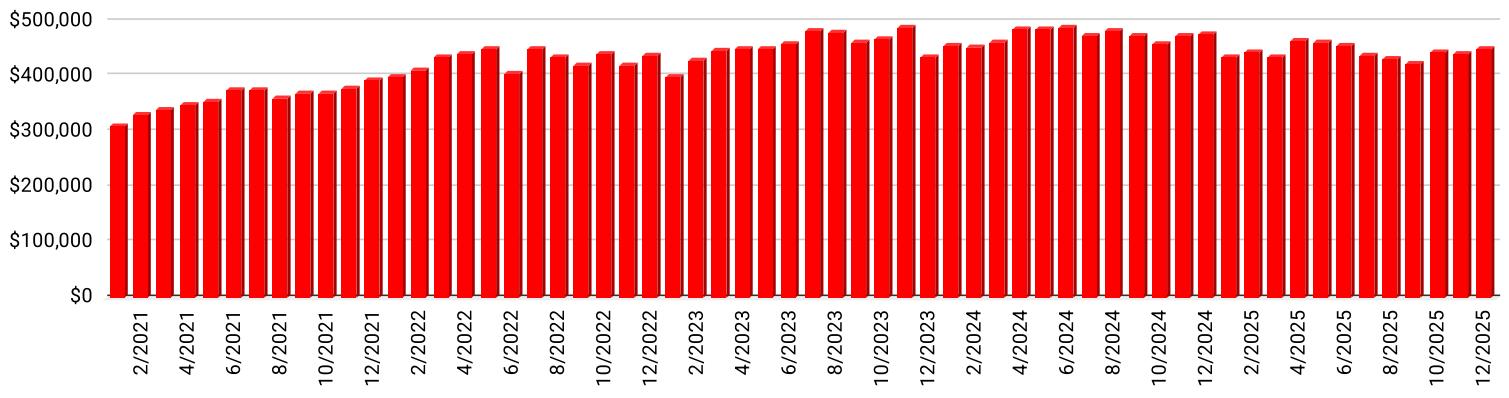

MEDIAN SALE PRICE

The Median Sales Price is the point at which half of the sales were above and half of the sales were below.

Unlike Average Sales Price, Median Price is not affected as much by a lot of high or low priced home sales in a particular month.

Month	Med Price	Change YoY
Dec 2025	\$450,000	-5.76%
Nov 2025	\$440,000	-7.37%

AVERAGE SALE PRICE

Median Sales Price is generally preferred to Average since Average Sales Price is subject to influence by the extreme low or high end of the market.

These are also only the sales price of homes that sold during the month, not the overall market as a whole.

Despite that, it can be a useful bit of information for overall trends.

MEDIAN % OF ORIGINAL LIST PRICE RECEIVED

Indicates what percentage of the original asking price the property eventually sells for.

This is typically a lagging indicator, meaning it can be used to confirm trends detected in other metrics.

Is also a good indicator for overall market consumer sentiment.

MONTHS SUPPLY

Also known as Absorption Rate.

An estimate of the number of months it will take at the current rate of sales to exhaust current inventory.

A Balanced Market is generally considered to be 5 months. A Seller's Market would be 0-4 months, and a Buyers Market 6 or more months.

MEDIAN TIME TO SALE

Similar to Time To Contract, Time to Sale is the median time a home takes from initially being listed until the completion of the sale.

This metric is useful to know the typical timeframes that a home takes to sell, and unlike an average, is not overly influenced by a few homes taking a very long time to

CASH SALES

Buyers paying with cash generally indicates investor activity.

However in times of low inventory Cash Sales can also increase due to Buyers being required to put together extremely competitive offers.

Most home buyers require a mortgage, so any significant change in Cash Sales is of interest.

CLOSED SALES By Price

For better insight into market trends, it is important to look at each price point separately.

While the work of selling a high or low price point is much the same, the timeframes and number of listings can be considerably different.

You also need to be mindful when the number of transactions is very low, such as currently homes under \$150,000.
