The Way Real Estate Should Be™

We know Realtors have a reputation.
We are changing that.

The stereotype for the real estate industry is to only highlight the good while ignoring the bad, not looking into, or hiding the bad.

At Ashlar Home Team, we believe that the only way you can make an educated home decision.... is by being informed of both the pros and the cons!

A home buying or selling experience with us feels like a service revolution but with a twist. We don't just sell homes, we sell solutions.

CLOSED SALES By Price

For better insight into market trends, it is important to look at each price point separately.

While the work of selling a high or low price point is much the same, the timeframes and number of listings can be considerably different.

You also need to be mindful when the number of transactions is very low, such as currently homes under \$150,000.
